

The Daily Courant.

Wednesday, March 17. 1703.

From the Paris Gazette dated Mar. 10.

Madrid, Feb. 18.

IT has been resolv'd, that of the Mony sav'd out of the Galleons, 4 Millions of Pieces of Eight shall be taken by way of Reprisal out of the Effects that shall be found to belong to the English and Dutch; that 2 Millions of Pieces of Eight shall be taken by way of Loan, to be employ'd in levying and paying the new Forces; and that all possible Assurance shall be given for repaying that Sum with Interest. The King frequently takes the Diversion of Hunting in the Neighbourhood of this City; and Comedys have been acted at Court, and other Diversions during the Carnival. On the 11th his Majesty dined in Publick, which he continues to do twice a week, at which time all the Nobility are admitted to make their Court to him.

From the Paris Gazette dated Mar. 17.

Madrid, Feb. 22. The Duke de Medina Celi has laid down the Office of President of the Council of the Indies. The Marquefs d'Almenara, Nephew of Cardinal Portocarrero is made General of the Horse of Catalonia. The Province of Guipuscoa, besides the Sums they have already voluntarily contributed, has resolv'd to levy and maintain a Regiment of 600 Foot, all Guipuscoans, who will be very handsomely cloath'd. They write from Cadiz, that the Sieur de Tournon, Patriarch of Antioch, has embark'd there for the Phillipine Islands, from whence he is to go to China. 'Tis advis'd likewise, that Fort St. Catherine which was ruin'd by the Enemy, is compleatly rebuilt, and made stronger than before, by new Fortifications, in which are planted 50 Pieces of Cannon.

From the Paris Gazette, dated March 10.

Rome, Feb. 13. The Devotions occasion'd by the late Earthquake continue still, and most of the Confrairies (or Religious Brotherhoods of Lay-persons) have been in Procession to St. Peter's, and other Churches. On the 7th the Pope went to the Church of Santa Maria in Trastevere, said Mass, and afterwards being accompany'd by all the Cardinals that are in this City, except three that were Indispos'd, went in Procession to St. Peter's notwithstanding it rain'd hard. The Magistrates of the People of Rome, have presented a Memorial to the Pope, desiring the Diversions of the Carnival may be wholly prohibited for 10 Years; that a new Church may be built and consecrated to the Holy Virgin, and that that of Madonna della Fornaci may be finish'd; that his Holiness would be pleas'd to grant an Indulgence yearly in form of a Jubilee on the day of the Purification of the Virgin, and that the Eve of that day may be a strict Fast; and that every Year 2 Candles may be presented to the Church of St. Peter of 60 pounds weight each. The Pope has remitted this Affair to a Congregation of Cardinals. The rash Predictions of some People have increas'd the general Consternation, and occasion'd a great deal of Trouble and Disorder; A Calabrian Priest, who pretended to have foretold the Earthquake that happen'd on the 14th of last month, and the 2d of this,

by the Rules of Astrology, having taken upon him to Prophesy that there will be a more terrible one on the 19th, is seiz'd and confin'd in the Prisons of the Holy Office. The Pope has given the Archbishoprick of Naples to Signior Pignatelli Archbishop of Tarentum, and at present Nuncio in Poland. His Holiness continues to send considerable Sums to relieve the Poor of the places ruin'd by the Earthquakes. Cardinal Marescotti has given all his Household Plate to be employ'd in relieving them; and Cardinal Pamphilio has given 4000 Crowns.

From the Paris Gazette, dated Mar. 17.

Rome, Feb. 20. On the 14th of this Month the Pope was oblig'd to keep his Bed, being incommoded by the Fatigue he underwent the precedent Days in accompanying the Processions on foot, and other publick Devotions. The Blessed Sacrament had us'd to be expos'd annually by direction of Cardinal Otoboni on the 18th of this Month in the Church of St. Lawrence in Damaso, but that Ceremony was this Year remov'd to the Church of Chiefa Nuova, that of St. Lawrence being damag'd by the Earthquake: In the middle of the Service a Child of 12 Years old cryed out with heavy Groans, that the City would be swallow'd up the following Night by a new Earthquake: The Child was had into a House, where after several Lyes, he confess'd that he was put upon to do this by those that rais'd the former Alarm. On the 19th the Pope held a Congregation, in which he exhorted the Cardinals to return thanks to God for delivering this City from the Danger that had threaten'd it, at the same time expressing his Satisfaction that the People had been thereby led to Repentance, and added that for the more solem Thanksgiving, Mass should be celebrated on the 22d of this Month, after which *Te Deum* should be sung; which for the future will be done yearly on Candlemas-day after the Office of that day, and the precedent Eve will be kept with fasting, the Magistrates of the People of Rome have made several Orders for restraining Luxury; the Ladys of chief Quality wear plain Black, without any Trimmings or Jewels, and in the several Quarters of the Town a Person is appointed to see this Mode strictly observ'd. 'Tis advis'd that the Earthquake was felt at Ancona and several Places in Romagna. We hear the City of Aquila is intirely destroy'd, and more than 3000 Persons were buried under the Ruins, among them 800 in the Church of St. Dominick, which was thrown down in a moment, while the Communion was distributing.

From the Paris Gazette, dated March 17.

Paris, March 17. Letters from Italy of the 26th of last month advise, That the Duke de Vendome being inform'd that the Garrison of Bersello is extremely incommoded and fatigued, order'd Mr. Mahony, Collonel of a Regiment of Irish, to block it up more closely with 1500 Foot, and 200 Horse, and continue the Bombardment. Accordingly Collonel Mahony has rais'd a Battery within 500 Fathoms of the place, and has had 6 Mortars sent him from Viadana. He is fortifying himself in his Quarters at Sancta Croce, 400 Fathoms distant from

from the place. All the Troops have Orders to hold themselves in a readiness to move as soon as the Weather will permit, but on what Design is yet unknown.

From the Paris Gazette a la Main, dated Mar. 9.

The last Letters from Madrid tell us, that the King of Spain is about to send 6 Millions into France, for the Expence of the Voyage of the King's Ships to Mexico, and for the Loss sustained at Vigo; and that his Catholick Majesty draws off 1800000 Livres for his Indulto.
